OBJECTIVE

Aspiring and motivated undergraduate student pursuing a Bachelor's in Information Technology, seeking an internship opportunity to further develop and apply skills in HTML, CSS, and JavaScript gained through hands-on projects. Eager to contribute to a dynamic team, learn from professionals, and make meaningful contributions to real-world projects.

EXPERIENCE

Jan 2024
- Current

- **Autech Job**
Internship Observer
As an Internship Observer, I've had the opportunity to immerse myself in a dynamic learning environment. My role involves shadowing team members to understand their day-to-day activities, participating in meetings and discussions to grasp decision-making processes, and contributing insights to various projects. I diligently document key learnings and engage in knowledge exchange with team members. With a proactive attitude and strong communication skills, I assist with tasks and projects while continuously seeking opportunities for professional growth. The experience has provided me with invaluable hands-on experience, exposure to diverse projects and teams, mentorship, networking opportunities, and a supportive work culture.

EDUCATION

2022-
present

- **KENT Institute Australia**
Bachelor's in Information Technology

2023-
present

- **Upskills Lab**
Web development Certification

SKILLS

- As a junior frontend developer, I bring a strong foundation in HTML, CSS, and JavaScript, enabling me to craft engaging and responsive webexperiences. Proficient in Git and Github, I effectively collaborate and contribute to team projects while embracing project-based learning to continually expand my skills. My resourcefulness and adaptability allow me to tackle new challenges with ease, while my networking efforts foster valuable connections within the industry. With self-motivation and problem solving abilities, I ensure projects are completed efficiently and effectively. I prioritize responsible design practices and have a basic understanding of front-end frameworks and DOM manipulation, positioning me as a versatile asset in any development environment.

PROJECTS

- **Personal Portfolio**
Crafting my digital presence : A personal Portfolio showcasing my passion and proficiency in web development. Dive into a collection of projects that highlight my skills in HTML, CSS , JavaScript, React, Git, GitHub and beyond.
- **Website Cloning Projects (HTML,CSS)**
Successfully cloned websites, including Amazon , Netflix and Tesla to enhance proficiency in HTML and CSS.
Applied responsive design principles to ensure optimal viewing across various devices.

- **JavaScript Projects**
Rock, Paper, Scissors Game

Developed an interactive Rock, Paper, Scissors game using JavaScript, showcasing proficiency in basic game logic and user interactions.
Implemented responsive design for a seamless gaming experience on different screen sizes.

To-Do List Web Application

Created a dynamic to-do list application with HTML, CSS, and JavaScript.
Utilized local storage for data persistence, allowing users to save and retrieve tasks even after page refresh.

AVAILABILITY AND PREFERRED INTERN ROLE

- Available for full-time internship throughout the year 2024.
Interested in the Front-end and Mobile Engineer Intern roles
