PROFILE

IT graduate with a year of hands-on experience as a System & Network Engineer at a managed service provider, supporting networks, Sophos firewalls, VPNs, Microsoft 365 and Windows Server across 50+ client businesses. Now completing the ACS Professional Year and studying for the Cisco CCNA, aiming to grow as a network engineer and move into network security. Brings calm, people-focused troubleshooting from current work in healthcare, along with first-hand understanding of 24/7, privacy-sensitive environments.

TECHNICAL SKILLS

Networking	Routers, switches, wireless access points, VLANs, TCP/IP & subnetting, DNS, DHCP, site-to-site & client VPNs
Security	Sophos firewalls & firewall rules, MFA, endpoint protection (Sophos, Microsoft Defender), email security, Zero Trust principles
Microsoft & cloud	Microsoft 365 (Exchange Online, SharePoint, Teams), Entra ID / Azure AD, Intune (MDM, compliance, security baselines), Azure
Systems	Windows Server 2012–2019, Active Directory, Group Policy, Windows & macOS support
Operations	RMM tools, patch management, Datto backup & disaster recovery, SLA-based incident management, technical documentation
Lab & tools	Cisco Packet Tracer, Git/GitHub, HTML/CSS/JavaScript

IT EXPERIENCE

Graduate System & Network Engineer

Nov 2024 – Nov 2025

Call IT Solutions (Managed Service Provider), Sydney

- Designed, implemented and maintained network infrastructure (routers, switches, access points, Sophos firewalls) across 50+ MSP client environments, supporting high availability and secure connectivity.
- Implemented security controls including MFA, firewall rules, site-to-site and client VPNs, endpoint protection (Sophos, Windows Defender) and email security, strengthening clients' Zero Trust posture.
- Administered Microsoft 365 and Azure (Entra ID / Azure AD) environments, including Exchange Online, SharePoint, Teams and security policies, supporting Modern Workplace and cloud-first deployments.
- Managed Microsoft Intune for device management, endpoint compliance, patching and security baselines across multi-tenant client environments.
- Configured and maintained Windows Server (2012–2019) services: Active Directory, Group Policy, DNS and DHCP.
- Provided Level 2/3 support across Windows and macOS under defined SLA targets, handling incident management and problem resolution to minimise downtime.
- Supported Datto backup and disaster recovery, including backup verification, restore testing and incident recovery.
- Performed patch management, monitoring and proactive remediation using RMM tools, reducing recurring incidents across client networks.
- Assisted cloud migration and change-management projects moving clients from on-premises infrastructure to Microsoft 365 and Azure.
- Produced network diagrams, configuration records, SOPs and handover documentation, and worked with senior engineers, vendors and stakeholders on upgrades and escalated incidents.

PROJECTS & ONGOING LEARNING

Secure network design for a residential aged care facility — In progress

- Segmented design (clinical, staff, guest and IoT/nurse-call VLANs) with firewall policy, ACLs and a backup/ransomware recovery plan, built in Packet Tracer and documented on GitHub.

CCNA lab log — Ongoing

- Public write-ups of routing, switching and security labs (VLANs, inter-VLAN routing, DHCP/NAT/ACLs, OSPF, switch security), each covering configs, verification and troubleshooting.

EDUCATION & CERTIFICATIONS

Cisco Certified Network Associate (CCNA) — In progress

Professional Year Program in IT (ACS) — Completing Jan 2027
QIBA, Sydney

Bachelor of Information Technology — 2022 – Nov 2024
Kent Institute Australia, Sydney

Certificate III in Individual Support (Aged Care) — Dec 2025

OTHER EXPERIENCE

Specialised Dementia Carer — Jul 2026 – Present
HammondCare, Miranda · permanent part-time

Assistant in Nursing / Care Assistant — Jan 2026 – Present
Carino Care, Oatley

- Deliver person-centred care in residential aged care, including medication duties (medication competent); communicate clearly with residents, families and clinical teams under pressure.

Bar & Gaming Attendant — Aug 2022 – Present
Kogarah RSL · permanent part-time

- Customer service, cash handling and responsible service of alcohol and gaming in a regulated, high-volume venue.
