PROFESSIONAL SUMMARY

Systems and Network Engineer with MSP experience supporting 50+ client environments across networking, Sophos firewalls, VPNs, Microsoft 365, Entra ID, Intune and Windows Server. Experienced in Level 2/3 incident resolution under SLA, endpoint management, identity and access security, and backup and recovery. Currently completing the ACS Professional Year in IT and the Cisco CCNA. Seeking a Level 2 Support, Systems Engineer or Junior Network Engineer role.

CORE SKILLS

- **Microsoft 365 & Identity:** Entra ID (Azure AD), Exchange Online, SharePoint, Teams, MFA, security policies, user and licence administration
- **Endpoint Management:** Microsoft Intune, MDM, device compliance, security baselines, patch management, Windows 10/11, macOS
- **Networking:** Routing and switching, VLANs, TCP/IP, DNS, DHCP, wireless access points, site-to-site and client VPN
- **Security:** Sophos firewalls, firewall rules, Microsoft Defender, Sophos endpoint protection, email security, Zero Trust
- **Infrastructure:** Windows Server 2012-2019, Active Directory, Group Policy, Azure, Datto Backup and Disaster Recovery
- **Service Delivery:** Level 2/3 support, incident and problem management, SLA targets, RMM tools, change management, technical documentation

PROFESSIONAL EXPERIENCE

Help Desk Support Intern | ICTechnology, Sydney | Nov 2026 - Present

- Provide first-line support to end users, triaging, troubleshooting and resolving incidents and service requests through the ticketing system.
- Escalate complex issues to senior engineers with clear diagnostic notes and document resolutions for the knowledge base.

Graduate System and Network Engineer | Call IT Solutions (Managed Service Provider), Sydney | Nov 2024 - Nov 2025

- Deployed and maintained network infrastructure for 50+ MSP clients, including routers, switches, wireless access points and Sophos firewalls, supporting secure and reliable connectivity.
- Configured firewall rules, site-to-site and client VPNs, MFA, endpoint protection (Sophos, Microsoft Defender) and email security to strengthen client security posture.
- Administered Microsoft 365 and Entra ID across multiple tenants: Exchange Online, SharePoint, Teams, user lifecycle, licensing and security policies.
- Managed Microsoft Intune for device enrolment, compliance policies, patching and security baselines across multi-tenant client environments.
- Resolved Level 2/3 incidents across Windows and macOS within SLA targets, owning issues from diagnosis to resolution and minimising user downtime.
- Maintained Windows Server 2012-2019 services including Active Directory, Group Policy, DNS and DHCP.
- Supported Datto backup and disaster recovery (verification, restore testing, incident recovery) and used RMM tools for monitoring, patching and proactive remediation.
- Assisted on-premises to Microsoft 365 and Azure migration projects, and produced network diagrams, configuration records and SOPs.

EDUCATION AND CERTIFICATIONS

Cisco Certified Network Associate (CCNA) | In progress

Professional Year Program in IT | Australian Computer Society (ACS), QIBA Sydney | Expected Jan 2027

Bachelor of Information Technology | Kent Institute Australia, Sydney | 2024
